

Jah Billah / DUB Activism / Performaces & Releases / Magu Shan Dub Tong / Links / Photos

Jah Billah A digital dubber, riddim producer and special mix engineer, Jah Billah hailing from Zagreb, Croatia sports **licence to DUB** and **permit to chill**. Starting as a online open source musical activist Jah Billah evolved to international reggae, DUB, dancehall and dubstep artist with musical links forged all over the world.

So far Jah Billah dubbed music from Bosnia & Herzegovina, Belgium, Canada, China, Croatia, Czech Republic, Denmark, Finland, France, Greece, Germany, Jamaica, Mexico, Netherlands, New Zealand, Poland, Romania, Russia, Serbia, South Africa, Spain, Switzerland, Sweden, UK, USA, Trinidad and Tobago... Hence proudly taking the banner of „**OUTER GALACTIC DUB AMBASSADOR**“ and motto of „**OUT OF MANY COME DUB AND OUT OF DUB COME ONE PEOPLE**“.

DUB Activism Acting as vocalist and riddim section dubman in production duo Anarcho Overdub Assembly first Jah Billah recordings were released around 2006/2007 trough Egoboo.bits online portal which pioneered the concept of **Wiki musical label** and explored the frontier of creative commons.

Within online Versionists musical community Jah Billah DUB tribe grows with musical fruits developing various mixing styles such as „madman DUB“ and „**8-hand octopus DUB**“, applying the principles and philosophy of analog elder DUB founders to push the limits of 21st digital DUB. Original Versionist online community was a place where artists and fans uploaded and exchanged musical tracks, stems, loops, acapellas, samples, dubs, remixes and constructive feedback ...in endless stream of highgrade reggae music and daily formed artist combinations.

Sheer amount of musical works forge Jah Billah skills to DUB music coming from source file, session recordings, MIDI, mp3, or any other format working with various DUB producers and vocalists.

Special projects such as **Open Dub Foundation** investigated the idea of first real time DUB tele conference.

From years 2008/2009 and onward many singles, compilation or album features and mixtape releases found and lost their way to various podcasts, musical websites and various online labels.

Artists freely exchanging knowledge, skills and services free for all is always at odds with interests of corporate monopoly capitalism and industry technological limits which curb culture and progress. Which begs the asking of digital zen question:

„What sound does mp3 make when the streaming site is down?“

Performaces & Releases As a selector Jah Billah started playing out strictly underground and unreleased dubs and specials from similar artists like Jahtari, Don Fe, Dubsmith, Maffi, Ras Amerlock, Bandulu Dub, Haji Mike, Sista Caro and many others. This lead to idea and performance of entirely special set such as one which was featured during **International Dub Conference** at Tübingen in year 2009. Not talking about special version DUB set or different DUB mix performance but playing unreleased unheard custom built musical album tailored for the occasion and mixed on the set for the unique, first, and once in a life time DUB experience.

Opening the set for legendary DUB master **The Scientist** in Zagreb's KSET club Jah Billah showcased a hybrid analog/digital setup playing rootsstep music in year 2010, all with old master's nodd of approval.

Keeping the fire alive with Zagreb's longest on-going musical programme **Reggae Tuesday** at Masters club from year 2010 and onward, Jah Billah took on selection of various regulars, dubs, specials, blends, mashups and dubplates displaying many colors across bass genres born out of reggae music playing 8bit, cumbia and moombathon DUB and as well as presenting all of Croatia's reggae sound acts as guest DJ's and selectors, and beyond.

In year 2014 at Pula's **Seasplash** festival Jah Billah performed alongside legendary raggamuffin MC **Jamalski** showcasing a custom built MIDI controller designed by Jah Billah and engineered by Shantea Controls. Named **Anandamidi**, this machine kills badmind soundboys controlling Deckadance DJ software and deadly duo of Interruptor's Tape Delay.

Jah Billah produced riddim launched outernational hit tune in year 2015 with female rap anthem hitting the chart tops when Remi & Sassja recorded „**Etikete**“ for Sassja's debut album.

In 2016. Jah Billah produced DUB for „**Dubs For Syria**“ a unique project uniting over 60 artists against the war.

No matter if the cause is cultural or technological, club small or festival big, tune large of never heard before, Jah Billah recipe for musical selection is same for musical production:

„Something old, something new, something ruff, something nice!“

Magu Shan Dub Tong Founded by Jah Billah around 2013, Magu Shan Dub Tong is a specialised digital label. After running a series of singles, full length album compilation project with Jamaican vocalists **Iyano Iyanti** is released in 2017 titled „**Global Showcase Volume One**“ featuring artists like **Monodread, Buds Kru, Process Rebel, Dr. Obi, Seed Organization, Dubsmith, Tony Dubshot** and more.
